THE SANTOS SCIENCE EXPERIENCE

Agriculture

The University of Melbourne is running an exciting 3-day program at the Dookie campus between 29 November – 1 December 2023. Dookie campus is a working farm - a centre of agricultural research and teaching. You will join scientists and agricultural student mentors in hands on activities in the laboratory and paddock investigating real world issues. Activities include biodiversity, sheep science, plant science, protein content of milk, cheese making and robotic dairy. There are 35 places left and accommodation is available at an additional cost. Book your place via www.scienceexperience.com.au

University of Melbourne

The Science Experience will be held between 22 – 24 January 2024 at The University of Melbourne and is for students heading into Year 9 or 10 in 2024. Students will get to experience university life with lectures, laboratory experiments and hands-on experiences run by our top researchers and scientists, all whilst exploring our world-class facilities. Students will have fun:

- Exploring the secrets of the universe with the physics show
- Extracting DNA from strawberries and examining the science of inheritance
- Studying ancient fossils and minerals in an introduction to Earth Sciences
- Discovering how and why our weather systems form
- Testing what chemicals go bang... and why?
- Taste testing indigenous foods & exploring ways they can solve the world's food crisis
- Exploring how mathematics plays key roles in our lives but hides right under our noses.
- Touring the Harry Brooks Allen Museum of Anatomy and Pathology
- Discovering the intersection of art and science at the Science Gallery

There are only 30 places available, so register today! www.scienceexperience.com.au

ALL STUDENTS

INTERESTED IN ENGINEERING?

The following are examples of amazing engineering programs:

Charles Sturt University

Charles Sturt University (CSU) offers an innovative civil engineering program like no other in Australia or the world. Forget studying semester-long subjects, taking exams, or listening to long lectures. Through the CSU 'Topic Tree' model, students study bite-sized content, and skills and knowledge on demand. The Bachelor of Technology (Civil)/Master of Engineering (Civil) is offered at the Bathurst campus (NSW) and students complete four-year's worth of paid work placement. Students can also apply for the \$20,000 Transgrid Civil Engineering Scholarship, www.csu.edu.au/engineering

Swinburne University

Swinburne offers the Bachelor of Engineering (Honours) (Professional) degree. This amazing program guarantees 12-months of paid industry experience. Whilst most engineering degrees offer 12-weeks of non-paid industry placement, this degree is an attractive alternative and will increase graduate employment prospects in a competitive market, www.swinburne.edu.au

Victoria University

Victoria University offers engineering degrees in Civil, Architectural, Mechanical, and Electrical & Electronic. They have a unique learning and teaching model called the 'VU Block Model' and are the first Australian university to offer this. Students study their subjects consecutively (one at a time) instead of concurrently (like you do in the VCE/HSC), www.vu.edu.au

UNSW

UNSW offers the amazing co-op program. Recipients are awarded a large scholarship (around \$20,000 per annum) and complete industry placements, leadership training, networking, and professional development. The program is highly competitive and applications close 30 September, www.coop.unsw.edu.au

ENGINEERING YOUR FUTURE

Year13 has partnered with Engineers Australia to create a fantastic program for students keen to explore careers in engineering.

"Engineering is all about blending science, creativity and problem solving to design the world around us. We've teamed up with Engineers Australia to show you what it's really like being an engineer, how to get started, and what sorts of exciting projects you could be working on in the future. Let's get started!"

The modules include:

Designing our future
Customise your career
The building blocks
Getting into gear

To start the modules, go to <https://year13.com.au/academy>

CAREERS WITH STEM

The A-Z of Health Jobs

Keen to explore a career in health? Passionate about science and people? Look beyond the health occupations you know about and read the A-Z of Health Jobs article written by Gemma Chiltern. Think – audiologist, epidemiologist, genetic counsellor, prosthetist, and vaccine scientist, <https://bit.ly/3PhysWB>

Want to work in STEM but don't want to go to uni?

Watch this fantastic video about 5 people who pursued STEM careers through a VET pathway. They are working in the following professions:

Carpenter
Arborist and horticulturalist
Metal fabricator
Lab technician
Aircraft maintenance engineer

WOULD YOU LIKE TO BECOME A PSYCHOLOGIST?

What does a psychologist do?

A psychologist studies mental processes and human behaviour through observation and experimentation. They diagnose and treat emotional or mental disorders, offering therapy and strategies to improve well-being. Read about the following on the Labour Markets Insights page:

- Tasks and duties
- Future employment growth
- Weekly earnings

<https://labourmarketinsights.gov.au/>

How do I become a psychologist?

The pathway to registration as a psychologist is complex and needs to be carefully planned in partnership with your career adviser. It will take at least 6-years to gain your general registration, and further study to specialise.

To view a visual map of the pathways, please check out the Australian Psychology Accreditation Council website, <https://psychologycouncil.org.au/>

What can I specialise in?

Specialisations are called 'Areas of Practice Endorsement'. They include:

- Clinical
- Forensic
- Educational and Developmental
- Counselling
- Organisational
- Community
- Health
- Sport and Exercise
- Clinical Neuropsychology.

Careers in psychology

Deakin University has developed an excellent website showcasing different careers in psychology, <https://psychologycareers.org.au/>

Is psychology for me?

Speak to your career adviser to explore this important question and to assess other options such as social work, youth work, counselling, human resource management etc.

LOOKING FOR A JOB?

Youth Central has an amazing website filled with resources designed to help you with the job seeking process. They cover everything from how to find a job, how to write a resume and cover letter, how to prepare for an interview, starting or finishing a job, your rights at work, and starting your own business. Explore the website via www.youthcentral.vic.gov.au

STARTING YOUR FIRST JOB?

Congratulations! This is a really exciting time – not only will you be earning money, you will be developing a huge range of skills, meeting new people, fleshing out your resume, and exploring career possibilities. Sophie Adderton from the Beacon Foundation recently recorded a podcast with the crew from Young Money Australia and discussed the following common questions about starting a new job

- How will I get paid?
- What is a Tax File number declaration form?
- What are the things to remember on my first day?

Listen to the podcast via <https://bit.ly/47Qaj0P>

JOB INTERVIEW TIPS

Do you have to undertake a group interview for a job you've applied for? This can be nerve wracking, but with preparation, you'll be able to nail it! Explore Careers in partnership with Spotlight Group Holdings have written an article that contains tips for your next group interview. Read it at <https://bit.ly/3OZCORb>

MEDICINE, DENTISTRY, & ORAL HEALTH - YEAR 11 STUDENTS

If you are in Year 11 and plan to study medicine, dentistry and/or oral health in 2025, you may need to sit the UCAT ANZ (University Clinical Aptitude Test).

You will sit the test during Year 12 and selected universities use your UCAT ANZ results as part of the selection process, in conjunction with your ATAR and Year 12 results, and in some cases an interview.

You will only have one chance to sit the UCAT ANZ in 2024. It will cost you around \$325 to sit the test, or \$199 concession (costs may rise in 2024), and you will be able to receive your results straight away.

Please go to www.ucat.edu.au for more information about the UCAT ANZ.

UCAT Preparation Programs

You have the choice to start preparing for the test early. There are several private companies that offer commercial preparation programs such as:

- NIE, www.nie.edu.au
- MedEntry, www.medentry.edu.au

It's important to note that private companies are not endorsed by the universities that use the UCAT.

MedEntry offers free resources such as a free UCAT exam, sample questions, and free bootcamp. Check these out via www.medentry.edu.au

WOULD YOU LIKE TO STUDY IN JAPAN?

Australia National University offers an exclusive double degree in Asia Pacific Studies and Global Liberal Arts in partnership with the Ritsumeikan University, Japan. Students can enrol to start studying in either Australia or Japan. Over the course of their study, all students will spend time learning on-campus in both Australia and Japan. The double degree is taught in English and will take four years to complete as a full-time student. For information, go to <https://bit.ly/3OVAH0G>

APPRENTICESHIPS & TRAINEESHIPS

Australian Apprenticeships Pathways (AAP)

This website contains fantastic resources for young people interested in pursuing a professional trade or traineeship. Some of the resources include:
