

## Supervision of Students

### School Premises

Supervision of the school premises will be provided by staff between 8:30 am and 5:00 pm. Students should not arrive at school before 8:30 am unless engaged in a specific, supervised activity. Nor should they remain at school after 5:00 pm unless involved in an activity. Any students studying after school should use the College Library.

### Bus Stops and Public Transport

The school bus stops are supervised by staff as students arrive of a morning and leave of an afternoon. The College is not responsible for supervision of students on public transport. Students needing to cross Sturt St when arriving and departing must use the traffic lights to cross.

### Excursion Departure and Return

Parents will be notified of expected student excursion return times prior to any such events. It is expected that parents make arrangements to arrive at the school before the designated times. A staff member will wait with students if required.
